CPUC - Division of Ratepayer Advocates' Comment, received 4/22/2010:

I have a question on the Draft 2010 CTPG Study Report, Phase 2. On page 19, 2.3 Grid configuration, 2nd bullet, it says "The addition of a recently approved third circuit between the Barren Ridge and Haskell to Canyon Substation" has been included in the model. I cannot find evidence of approval. Who approved and when?

Would appreciate your response.
